

The European University Alliance for Global Health –

Transformation through Joint Research and Innovation Action (EUGLOHRIA)

SAVE THE DATE

THE EUGLOHRIA SEEDING CONFERENCE FOR JOINT PANDEMICS RESEARCH DATE: 16–17 MAJ 2022, LUND UNIVERSITY

We hereby kindly invite you to **Save The Date** for a two-day joint digital conference on the topic of pandemics and COVID-19 related research, organised by Lund University on **16-17 May 2022**.

This invitation is addressed to researchers and stakeholders with pandemics-related research projects conducted at universities within the European Alliance for Global Health – Transformation through joint Research and Innovation Action (EUGLOHRIA, <https://www.eugloh.eu/research/euglohria>). EUGLOHRIA is a consortium consisting of Lund University, Université Paris-Saclay, Ludwig-Maximilians-Universität München, Universidade do Porto, and University of Szeged. The aim is to build a European University of the future by bringing universities across Europe together and combine their outstanding expertise in Global Health, Research and Innovation.

The main objectives of the *EUGLOHRIA seeding conference for joint pandemics research* are:

- 1) To encourage the exchange of new scientific and innovative insights and ideas on pandemics and COVID-19 challenges;
- 2) To facilitate the formation of new research collaborations within and between partners within the EUGLOHRIA consortium;
- 3) To promote and support joint research applications to external funding agencies;

The conference will start with an introduction of EUGLOHRIA and an outline of infrastructures and industrial partners available within the consortium. A seeding grant opportunity for new potential EUGLOHRIA collaborations will also be presented. To facilitate scientific discussions and foster such new collaborations, satellite meetings in topic-specific break-out rooms will then be organised for detailed discussions of ongoing research and future perspectives for collaboration within EUGLOHRIA. In summary, the *EUGLOHRIA seeding conference for joint pandemics research* aims to facilitate networking and support new exciting research collaborations in pandemics research.

Participation is free of charge.

Registration for this event and abstract submission will open on 10 March 2022 via the link to the event website: [The EUGLOHRIA Seeding Conference For Joint Pandemics Research](#)

The final deadline for abstract submission is 31 March 2022.

We look forward to your participation!

Heiko Herwald, Joakim Esbjörnsson, Fariba Vaziri-Sani
